Short explanation about cookies in general.

- A persistent cookie remains on your hard drive after you close your browser. Persistent cookies may be used by your browser on subsequent visits to the websites.
- A session cookie is temporary and disappears after you close your browser. (It will not remain on your hard drive.)

Cookies do not cause damage to your computer systems or files, and only the websites that transferred a particular cookie to you, can read, modify or delete such cookies, as long as they are still present for your browsers. If you do not want information collected through the use of cookies, there are simple procedures in most browsers that allow you to delete existing cookies, to automatically decline cookies, or to be given the choice of declining or accepting the transfer of particular cookies to your computer.

Please refer to your browser instructions or help screen, to learn more about these functions. You should however note, that declining cookies may make it difficult or impossible for you, to use all portions or services of websites.
